EDUCATION

Vellore Institute of Technology

Bachelor of Technology in Computer Engineering
CGPA: 8.19/10.0

Vellore, India

September 2022 – May 2026

Kendriya Vidyalaya Rajasthan

Class XII - Higher Secondary Education
Percentage: 94%

Rajasthan, India

April 2020 – April 2021

SKILLS

Programming Languages: C, C++, Java, Python, JavaScript

Data Science & Machine Learning: Pandas, NumPy, Scikit-Learn, Statistical Analysis, Model Evaluation

Web Development: Django, HTML5, CSS3, JavaScript, Responsive Design

Database & Tools: SQL, MySQL, PostgreSQL, Git, GitHub, Spreadsheet Applications

Core Competencies: Algorithm Design, Data Structures, Problem-Solving, NLP, Time-Series Analysis

Soft Skills: Team Leadership, Communication, Event Management, Organizational Skills, Adaptability

WORK EXPERIENCE

One Stop Global

October 2024 – December 2024

Intern (Remote)

Gurgaon, India

- Improved task efficiency by 15% by applying learned concepts effectively in real-world scenarios
- Organized 500+ files and reports, streamlining access to important documents for the team
- Actively participated in workshops and presentations, increasing project knowledge by 30%
- Utilized strong interpersonal skills to effectively communicate information to team members

Cvent

May 2023 – July 2023

Volunteer

New Delhi, India

- Collaborated with Event Management team to plan and execute events, enhancing teamwork skills
- Utilized strong communication skills to relay information to attendees, resulting in positive feedback

PROJECTS

Stock Price Prediction

September 2025 – November 2025

- Developed predictive model for stock price forecasting using LSTM and Random Forest algorithms on historical market data
- Implemented data preprocessing, feature engineering (technical indicators), and model evaluation achieving 85%+ accuracy
- Built interactive dashboard for visualization of predictions and trend analysis using time-series modeling
- Tech Stack:** Python, Pandas, Scikit-Learn, TensorFlow, Statistical Analysis, Data Visualization

Sentiment Analysis System

January 2023 – April 2023

- Achieved 92% sentiment classification accuracy on 10,000+ social media posts, 15% better than baseline models
- Implemented NLP pipeline with text preprocessing, tokenization, and TF-IDF vectorization for feature extraction
- Trained and compared multiple ML models (SVM, Naive Bayes, Random Forest) for optimal performance
- Tech Stack:** Python, NLTK, Scikit-Learn, Natural Language Processing, Machine Learning

Personal Portfolio Website

August 2024 – September 2024

- Designed and developed responsive portfolio with modern UI/UX principles, achieving 95+ Lighthouse performance score
- Implemented interactive project galleries, contact forms, and smooth animations for enhanced user engagement
- Deployed on GitHub Pages with custom domain, SEO optimization, and cross-browser compatibility
- Tech Stack:** HTML5, CSS3, JavaScript (ES6+), Bootstrap, Git, GitHub Pages

CERTIFICATIONS

IBM Generative AI Professional Certificate (May 2025 – July 2025)

Coursera - DeepLearning.AI Data Engineering Professional Certificate

CodeBasics Data Science Bootcamp Certification

McKinsey Forward Program (10 weeks)

POSITIONS OF RESPONSIBILITY

Core Committee Member (AI/ML Club) VIT

- Organized workshops and events; gained hands-on experience applying AI/ML in real-world scenarios

Event Manager at Rivera (VIT Cultural Fest)

- Led the marketing for South India's largest fest; managed sponsorships and organized Infusion, a cultural event with 31+ Countries
